DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to A Vertical Furnace.

Group II, claim(s) 3-4, drawn to A Heat Treat Method.

Group III, claim(s) 5-8, drawn to A Wafer Boat for a Vertical Furnace.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The vertical furnace of the present application does not require a wafer boat having support members with groove-like cutouts; the wafer boat for a vertical furnace does not require that the wafer be supported on the holding means by the particular orientation as specified in Group I; the heat treatment method does not require the use of a wafer boat having support members with groove-like cutouts, nor does it require the gas feeding means as specified in Group I.

A telephone call was made to William Solomon on 8/8/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3749

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
